**PRODUCT: KoolCote CONCENTRATED CONCRETE ADDITIVE**

TYPE: VINYL ACETATE EMULSION

PRODUCT DESCRIPTION: KoolCote Concentrated Concrete Additive is a premixed vinyl acetate emulsion with mildewicide and algaecide added. It is formulated at 55% solids by weight.

USES: May be used to fortify lightweight concrete mixtures. May also be used as a prebonding agent.

APPLICATION AND CLEAN UP: Mix one part KoolCote Concentrated Concrete Additive and one part water to desired dry concrete sand mixture. Clean tools with soapy water immediately after use. Rinse well with clean water.
